The Hyundai Imax van is the perfect solution for the family needing to transport a wheelchair. As a vehicle, Hyundai have a terrific reputation and warranty, with service and repairs available throughout the country.

Layouts can be tailored to suit your specific needs. The most common layout is to remove the original rear third row, allowing space for the wheelchair.

We use and recommend quality Braun lifts, and dependent upon the wheelchair size, we have two options to choose from. The restraint system installed is the quality Q’Straint slide and click. They are easy to use and operate.

Entry height is 1175 mm allowing sufficient clearance for most applications. Internally the height increases.

Our Imax upgrades come standard with a carpeted steel floor and upgraded rear suspension to handle the additional loads. The spare wheel also remains underneath the vehicle and is easily lowered should the need arise.

For further options and enquiries please don’t hesitate to contact us.

Possible Layouts.

**Rear position.**

**Forward LH position.**

**Central position + twin**

**Rear position + 2 Singles**

**Forward position + twin**

**Central position + 2 singles**
**Entry Height.**

Entry height is 1175 mm allowing sufficient clearance for most applications. Internally the height increases.

---

**Vista VL995-2740**

The Vista lift is a compact unit and has the best visibility due to the unique stacking platform, which is stowed away below the rear window line.

Platform dimensions:
- Length 101 cm
- Width 68 cm
- Capacity 272 KG

---

**Century XT CL995-3052**

The XT series incorporates a telescopic stacking platform, providing a larger deck for longer wheelchairs.

Platform dimensions:
- Length 131 cm
- Width 74 cm
- Capacity 272 KG

---

When it comes to restraint systems you can’t beat the high quality Q’Straint “Slide & Click” range. We use and recommend the “deluxe” version as they have the provision for additional tensioning when required. The “Slide & Click” range simplify the securing of the wheelchair and have now become industry standard.
**Option—fold down seats**

*With 2 single seats—Confirm wheelchair width. Gap is 625mm when seats are in the raised position*

The option of additional single or double fold seats is also available, should the need arise.

**Option—storage box**

The option of A storage box to retain the restraints and associated components when not in use

**Spare wheel access**

Alternate Mobility is a registered NDIS and Voss industry provider and have been service agents for several years through our sister company, Alternate Solutions Group.

Our motto is “Freedom of motoring,” we are committed to finding a safe and cost effective solution for client’s themselves—not forgetting the carers, occupational therapists, and health and safety personnel.

Alternate Mobility has formed effective alliances with the major suppliers and providers using only high quality products which are designed for the wheelchair and vehicle access industries/markets.

These include and but are not limited to:
- Wheelchair lifts
- Restraints and seat belts systems
- Hoists
- Winches
- Seating
- Ramps and steps
- Automated doors, ramps and tailgates
- Custom hand rails
- Custom flooring

Whether it is a simple repair or major upgrade or through an OHS compliance issue, our aim is to help find a solution to meet your needs.
